Alexander McKinnon-Brown

Charlotte, NC • 704-726-6470 • brown.alexander10133@gmail.com

Professional Summary

LX/AV technician with hands-on experience in live event production, with a proficiency in lighting. Skilled in load-ins, load-outs, equipment maintenance, hanging/addressing/patching/focusing lights, power distribution, projectors, screens, video walls, and troubleshooting. Proven in high-stakes environments including corporate, theatrical, and concert events, with strong collaboration, a focus on safety, and adaptability across departments.

Experience

Stagehand

IATSE 322 Local, Charlotte, NC

March 2022 – Present

- Supported load-ins, load-outs, and warehouse operations for corporate, theatrical, and concert events, including gear prep, inventory handling, safe truck loading/unloading, and equipment maintenance for lighting, AV, video, and audio systems
- Performed as Lighting Technician, hanging, focusing, addressing, chaining, and striking moving lights (ERAs, VLs, Exo's/PARs, Lekos, Fresnels) and conventionals; ran power/data distribution for LX/AV rigs; flew truss and built lighting trees
- Operated lighting boards (Road Hog 4, Chamsys QuikQ 20); tested boards and resolved software issues; assisted leads/programmers with technical operations
- Built and flew speakers and audio PAs; set up projectors, screens, video walls; laid power for full rigs and ensured proper signal flow

Electronics Director

Wild West Lighting, Charlotte, NC

April 2022 – May 2024

- Maintained and repaired diverse equipment including moving lights, boards, cables, foggers, motors, etc; diagnosed electronics problems with proactive, safety focused approach
- Updated operating systems on boards, troubleshot software/electronics issues, and ensured reliable technical operations while also upholding general fullfilment duties around shop
- Managed stagehands, planned setups/strikes, collaborated with clients, lighting designers, producers, and directors to ensure seamless operations and customer satisfaction
- Gained comprehensive understanding of various electronic systems, supporting live events with detail-oriented execution

Co-Founder / Operations & Strategy

TruFarms

2023 – 2026

- Co-founded Minnesota based cannabis manufacturing business TruFarms. Handling strategic planning, regulatory research, vendor/partner relationships across cultivation, extraction, testing, and distribution
- Supported cross-organizational collaboration with public health stakeholders for education, compliance, and industry growth
- Planned and executed a public cannabis education summit in collaboration with Olmsted County Health in Rochester MN, supporting nonprofit and community outreach initiatives

Education

A.A.S., Information Technology, Full Stack Programming

Central Piedmont Community College, Charlotte, NC

May 2024 - NA
